LOOKING AHEAD

The past year has been an eventful one for the town of Mattapoisett as it completed and celebrated 100 years as a town. The Centennial Pageant depicted the enormous change that the town underwent in its first 100 years. In that comparatively short space of time we span the distance between the sailing ships, that made our town known throughout the whaling world, and the space age which is now in its infancy. At this time we have men living in the town who remember the great shipbuilding industry on the waterfront. In the space of their lifetime they have seen the sailing ship replaced by great floating cities of steel driven by steam. The airplane has been invented and developed to such an extent that distant parts of the earth are but hours away. They have seen the propeller driven airplane give way to the jet and this very year has seen the beginning of the space age in the form of giant rockets.

Nuclear power drives our submarine Nautilus and will soon power our ships and light our cities. The tempo of discovery and invention has been increasing to such an extent that no dream or prediction is too wild or far fetched. If man can remain free of war, we may live to see disease conquered, solar power heating our homes and powering our cities, manned space satellites and trips to other planets. Discoveries not yet dreamed of will change our lives.

As we enter a new phase in the life of our town, the world around us is changing and will so rapidly that we are privileged to live in the most exciting period in all of history.

COVER PICTURE - Twin Towers, Wareham, Mass. This picture, we think, was taken in 1920 at the time of the 300th anniversary of Plymouth which accounts for the Pilgrim in the photo. The towers are symbolic of Wareham's position as the gateway to Cape Cod. There is now a very nice information center at this spot in addition to the towers that proves of great help to tourists bound for the Cape. You will recall that one of the prize winning floats in the Mattapoisett Centennial parade was a reproduction of this scene.

MRS. SIMPSON TO SPEAK AT GUILD MEETING

Mrs. Alan G. Simpson, MD will be the guest speaker at the meeting of the Women's Community Guild of the Mattapoisett Congregational Church to be held Tuesday, January 7th, at 2:30 in the church vestry. A devotional service will be led by Mrs. Charles MacLauchlin, and the business meeting will be conducted by Mrs. Frederic E. Reynard. Hostess at the social hour is Mrs. Edwin Perkins.

WOMAN'S CLUB BOWLING LEAGUE

High bowlers at the last meeting of the Mattapoisett Woman's Club bowling league at Bowl-Mor Alleys were Priscilla Hiller (109) 300 and Pauline Renahan (132) 347. Bowling, which hasn't been held for the past two weeks, will resume next Monday afternoon, January 6th, at 2:15.

CLEANING UP AFTER CHRISTMAS

Many days are spent preparing for Christmas and sometimes it is difficult for the children to face removal of the Christmas tree. However, if you make a game of it, the whole family can enjoy themselves. If everyone is given a large basket or box and a prize is awarded for the one who collects and stores away the most decorations and perhaps serve some simple refreshments after you remove the tree, it indeed can be a festive occasion for all the family.

Miss Beatrice I. White, Home Demonstration Agent of the Plymouth County Extension Service, also reminds homemakers that when you have finished your general inside clean-up job, remove any grease spots from the carpet which too often are caused by crushed crumbs from candy or cookies or tinsel from the tree or berries from the wreath. They can all play havoc with your rugs. Make sure these are cleaned up by using heavy detergent sude and wiping off immediately.

BROTHERHOOD EXPRESSES THANKS

The Rochester Men's Brotherhood wishes to thank all those who made its Christmas toy distribution possible. Under this program 58 Rochester children received toys on Christmas Eve.

BUYING BEEF FOR THE FAMILY
A HOMEMAKERS' PROBLEM

Knowing how to recognize cuts of beef and how to select one for your use will be the subject of meetings of the Home Department, Plymouth County Extension Service, January 8th, Hingham; January 9th, Brockton and January 10th, Middleboro.

A tour through a meat department where actual cuts of beef can be seen and any questions asked will be followed by a discussion of some of the problems homemakers have in buying beef for family meals.

Any homemaker may enroll for one of these meetings by writing to the Plymouth County Extension Service or by calling Juniper 6-4993.

Accepting the appointment, Sears voiced the vital necessity for understanding and working actively for victory over this family of diseases.

MATTAPOISETT GROUP EXHIBITS PAINTINGS

The Mattapoisett Art Class, directed by Donald Jason, will exhibit paintings recently completed, starting this Wednesday, January 8th, at the Mattapoisett Free Public Library. Many paintings are first or second attempts, and will show clearly what can be accomplished along this line by people who are just starting to learn to paint. Other paintings will be by people who have been with the class for a longer period. We think that the exhibit will prove most interesting to the people in this and surrounding towns particularly those who whould like to try their own hand at this art.

Members who will exhibit paintings will be Mrs. Ralph C. Dunn, Mrs. Richard B. Young, Mrs. Allan Vaitses, Mrs. Walter Wood, Mrs. Howard Richards, Mrs. Alexander Barrie, Mrs. C. W. Tylee, Mrs. John Murphy, Mrs. Earl Boardman, Mrs. Richard Baxter, Mrs. William Smith, James Maury of Mattapoisett and Mrs. Winston Cushman and Mrs. Robert Whitcomb of Wareham.

HOME & COMMUNITY SERVICE NIGHT AT JUVENILE GRANGE

Mark Twain once went to borrow a book from a neighbor's library. The owner said he would be happy to accomodate him, but he had adopted a new rule that any volume taken from the library must be used on the premises.

The next week the neighbor dropped in for the loan of Mark's lawn mower.

"Take it and welcome," chirruped Twain," but under a recently adopted policy it is only to be used on the premises." - Kessinger's Mid-West Review

moderate the first part of the day, the latter part is calm and light airs from the north and west. We saw 2 rt. whales and a plenty of humpbacks and sulphurbottoms. The sulphurbottoms turn flukes. We lowered twice but did not get fast. We finish trying out our whales.

June 25th. Thursday the wind is moderate from S. At 6 A.M. we saw 2 pair of whales 3/4 of a mile apart. The 2 quarter boats lowered as usual for one pair. The starboard boat got fast. They killed the whale. We took him alongside and cut him in. The other 2 boats lowered after a while for the other whales but the signal was soon set for them to go to the other boats. In the afternoon we stow oil down the mizzen hatch. We saw a rt. whale at 2 P.M. off over a mile. He was feeding and did not show much chance to strike. The waist and bow boats were sent after him. After some dodging the bow boat struck him in the small. He kicked up and the corners of his flukes cut her bow half off and the whale went off with the line. The water is discoloured as if on soundings.

June 26th. Friday begins with the wind S. It veers round W. It is light all day and ends with calm. We have fog at intervals through the day. We spoke the ship OREGON of Fairhaven, 13 mos. out with 200 bbls. of sperm oil, nothing this season. We saw 6 rt. whales and lowered 4 times but did not get fast. The water is discoloured like soundings. There is plenty of Humpbacks about us. The rt. whales seems to be a feeding, blow once at a rising. They go in pairs and show no chance to strike.

June 27th. Saturday begins with light airs from various quarters and calm. The fog is thick till 1 P.M. Three rt. whales came near the ship at noon. The 2 quarter boats lower for them. Mr. Comstock not wanting to go off in the fog he sent William Fielding in

Life, after all, contains only one great problem - that of so adjusting yourself to the inevitable that you can keep your peace of mind and your self respect. The greatest discovery a man can make is how to escape envy and hate.

MATTAPOISETT ART CLASS EXHIBITION

The Mattapoisett Art Class exhibition of oil paintings will be on display this week in the window of Fuller's, 104 Middle Street, New Bedford, Mass. The exhibition will be in Fuller's window starting Wednesday, January 15th and in the Mattapoisett Free Public Library. There is a variety of style and scene in this show. The exhibition is very interesting in the respect that many of the paintings represent first or second paintings by people who have just started to paint, and clearly show what interested people can accomplish in a very short period of time. There is a growing enthusiasm in this whole area for art as a hobby, and we hope that those interested people who have never tried painting will be encouraged to do so by some of these new painters. Represented in the exhibit are paintings by Mrs. John Field, Mrs. Ralph C. Dunn, Mrs. Richard B. Young, Mrs. Raymond Stowell, Mrs. Allan Vaitses, Mrs. Walter Wood, Mrs. Howard Richards, Mrs. Alexander Barrie, Mrs. C. W. Tylee, Mrs. John Murphy, Mrs. Earl Boardman, Mrs. Richard Baxter, Mrs. William Smith, James Maury of Mattapoisett and Mrs. Winston Cushman and Mrs. Robert Whitcomb of Wareham, and Donald Jason, instructor of the group.

LITERATURE-DRAMA GROUP HAVE MEETING

Mrs. Howard H. Smith of Acushnet Road, Mattapoisett entertained 10 members of the Literature-Drama group of the Mattapoisett Woman's Club at her home last Tuesday afternoon when 2 books were reveiwed and discussed. The books were "Rally Round the Flag, Boys" by Max Shulman and "Jane" by Phyllis Bottome. Following the discussion a gift exchange and coffee hour were held. Mrs. Smith was assisted by Mrs. Kenneth Tuttle and Mrs. Willis Collyer. The next meeting is to be held at the home of Mrs. Robert Flanders of North Street when members are asked to bring in news articles, editorials, or their own ideas concerning world events.

Because the group felt that a month was not long enough for every member to get a chance to read the books under discussion the books to be discussed at the March meeting were chosen at this meeting. They are "The Sound of Thunder" by Taylor Caldwell and "To Live Again" by Catherine Marshall.

ROCHESTER WOMAN'S CLUB DANCE BENEFITS MARCH OF DIMES

A business meeting of the Rochester Woman's Club was held on Tuesday afternoon at the clubhouse on Marion Road. Mrs. Henry B. Smith presided.

It was voted that the money that was left over after the expenses of the First District Conference were paid be used to buy and plant a tree in the Woman's Club Memorial Park and the remainder toward a gift for a veteran's hospital.

Mrs. David Fearing reported on the December record hop, and announced that there would

A letter from the local Red Cross chairman was considered with regard to the club sponsoring a class in home nursing in the early spring if enough people are interested. Mrs. Albert E. Hellyer offered to be in charge and people in Rochester who would be interested in joining a class may call to register between now and the next regular meeting on February 5. In order to start a class of this type, it is considered best to have at least twelve enrolled. There would be two-hour sessions one night a week for a total of seven weeks. The course is taught by a registered nurse and can be extremely useful. If people are prompt in registering, arrangements can be made at an early date to suit the convenience of all concerned.

Mrs. Albert Hellyer reported for the refreshment committee for the children's Christmas party. Mention was also made of the food sale at the Star Store on the 28th of

ROCHESTER P-TA MEETING HELD
ART EXHIBIT BY PUPILS

A large group of parents and guests attended the Rochester P-TA meeting recently and were impressed by the "Winter Art Exhibit" on display of creative art work done by the pupils of the Rochester Consolidated School. The exhibit was planned by the program committee in cooperation with the art instructor, Mrs. Thomas Oldfield, and was on display the full length of the corridor. The artistic work ranged from the primitive and precise type to the aesthetic art. It was evident from the display that the pupils had a good background on form, color and design. Mrs. James Duffy of the program committee presented Mrs. Oldfield with five books on art to be placed in the school library.

Albert O. Duseault announced that at the last P-TA meeting Mrs. Arlene McCulloch's grade 2 won the attendance banner and Mrs. Ruby Lindsay's grade 4A was the runner-up.

Mrs. George M. Davis, president, read the proposed amendments to the by-laws and they were voted.

Mrs. Stepehn Saunders, chairman of the Rochester Red Cross, spoke briefly mentioning that the annual meeting and election will be held January 27, at 8 P.M., at the vestry. The meeting is open to the public and the only requirement is that you have donated to the organization during the year. She stated if the P-TA is interested in sponsoring a First Aid course, a Red Cross instructor is available. A Red Cross class in home nursing will be sponsored by the Rochester Women's Club in the early spring if enough persons are interested. Mrs. Albert Hellyer will be in

Mrs. Margaret Doane, treasurer, announced that she had received $107 to date for the Bernice M. Arenberg Scholarship fund. Anyone wishing to contribute may send their donation to Mrs. Doane. The full amount collected this year will be given in June to a Rochester boy or girl who is furthering his education.

A temporary committee has been set up with Albert O. Duseault, Mrs. Doane and Issac Arenberg.

Mrs. Ernest Sherman, chairman of the ways and means committee, announced that $7.45 was raised at the Chinese Auction held at the last P-TA meeting. Mrs. Sherman stated that there will be a food sale at the Star Store, March 21st, and hoped all members would donate food at that time to make the project a success.

A Founders Day collection was held.

Albert O. Duseault announced that all teachers will be in their homerooms at 7:30 before each P-TA meeting giving the parents the opportunity to confer with the teacher.

An announcement was made urging people to visit the Rochester Public Library and borrow books. New books are available of interest to the men, light fiction and books of general interest. The library is open from 3 to 8 P.M. on Saturdays. Persons finding that time inconvenient are asked to mention this to the librarian, Mrs. Olive Winslow, and state their preference as to a convenient day and time.

Mr. Duseault announced that the train, SCHOOLROOM PROGRESS U.S.A. will be at the New Bedford railroad station February 5-10. This train has been brought to New Bedford as a public service by the New Bedford Gas and Edison Light Co.

The train hopes to achieve three basic purposes, "to encourage an ever increasing interest on the part of young Americans in

SCOUT TROOP AND EXPLORER TROOP TO CONDUCT PAPER DRIVE

Mattapoisett's Boy Scout Troop 53 and Explorer Post 53 will conduct their annual newspaper, magazine and scrap paper drive throughout the town this Saturday, February 1st, weather permitting.

All homeowners who have papers to be collected are asked to have them in bundles outside in view of trucks that will be traveling along each street in the town. All sections of the community, including the beach areas, will be covered during the day.

The collection will begin at 9 A.M., when members of both units will assemble in front of the Mattapoisett Congregational Church to be assigned to trucks. Each truck will be given a designated route to cover.

Adult leaders of both units will be driving the trucks and supervising the project. In the event of inclement weather, the collection will be postponed one week to Saturday, February 8th.

WHEN A TOWN GROWS A CHURCH MUST GROW

A campaign drive for funds for a new Parish House for the Mattapoisett Congregational Church will get underway the week of February 17th. This will be the first step taken towards raising $100,000.00 in a three-year Program of Progress.

Plans for this new Parish House, which will be erected on the church grounds on the east side of the church, have been drawn up by architect Earle L. Kempton of the Walter M. Gaffney Associates of Hyannis, Mass.

In its plans the two-story building will be comprised of Sunday School rooms, church offices, auditorium-gymnasium, kitchen and rest rooms.

During the last several years the Sunday School has grown immensely, and it is now necessary to hold Sunday School classes in the church auditorim, the choir loft, kitchen and the kindergarten room in addition to the vestry. Classes are so crowded together that it is most difficult for the teachers to conduct a class and for the pupils to listen and take part in the classroom discussions.

Not only is the Sunday School growing but other organizations in the church also, which means that a larger hall is needed for meetings and a larger kitchen of course will be necessary.

Let's, all members of the parish, get behind this Program of Progress, and grow with our church.

The Building Committee: William J. Spark, Jr., chairman; Richard Chase, Rev. Frederic

WINTER WINDS

by M. R. Tuttle

I'm asitting and alistening
To the wind so strong and cold.
It's blowing and a blowing
Never caring, never knowing.

How it hurts us poor old fellows
As it pushes through our clothes
Raising pimples on our skin
Dripping water from our nose.

It takes no thought of youth or age
Just keeps on pushing through the cage
That does cover skin and bone
Makes us wish that we'd stayed home.

We sort of shrivel with each blast
And shiver, shiver till it's past
Chilling the marrow in the bone -
We're mighty glad when we get home.

Where we can warm our hands and feet
Where everything is warm and neat
Where the love of God and love of home
Brightens our lives when we're alone.

ROCHESTER 4H GIRLS MODEL DRESSES

Edith Hedges, Marjorie Gerrish and Mae Norton, 4H Girls of Rochester, went to Halifax on January 25th and modeled dresses made by the Simplicity Pattern Co. Dresses, made from these patterns, are to be modeled all over the United States. Boys' spring fashions were also modeled by 4H Boys. The commentator for the girls was Helen Southard and for the boys Mr. Joseph. Mr. and Mrs. Oscar Norton assisted in serving refreshments. Mr. Norton is on the advisory board.

LITERATURE-DRAMA GROUP MEETING

Members of the Literature-Drama group of the Mattapoisett Woman's Club will take a news article or editorial of world events to be read and discussed in a 5-minute period at their meeting next Tuesday afternoon, February 11th, at 2:30, at the home of Mrs. Robert Flanders of North Street. Members planning to attend are asked to notify the hostess.

GIRL'S BASKETBALL TEAM WINS TWO GAMES

The Mattapoisett Center School girl's basketball team won two games the past week, beating Wareham and Marion. The girls beat Wareham by the lopsided score of 82-21. Rachel Davis scored 41 points. They beat Marion 26 to 18 two days later. This was a team victory with all three forwards scoring pretty evenly. Rachel Davis, Carole Sherman and Alica Sullivan were the point getters. Joyce Green, Joyce Harrison, and Marsha DeCoffe were the guards and they did an outstanding job holding down the Marion forwards to 18 points. Incidentally, Marion, the previous week, beat the girls by over 30 points, so this was sweet revenge for the girls.

The boys got back on the winning side by beating Elmer Poole of Dartmouth 62 to 29, and Wareham 44 to 42 in overtime. This gives the boys an impressive 8 to 2 record with five games to go. Mike Fitzgerald, Bob Bowman and Jeff Purvis paced the team in the Dartmouth game.

Fitzgerald in the last four games has tallied the following number of points: 27 in the Dartmouth game, 25 Fairhaven, 20 Dartmouth, 21 Wareham. Bob Bowman and Jeff Purvis have been scoring consistently also. Pete F[illegible]mino has been playing a fine floor game and Paul Dextraze has been grabbing the rebounds. These five boys have been working together very well.

"OPERATION - DOORBELL"

The campaign drive for funds for a new Parish House for the Mattapoisett Congregational Church will get underway Monday, February 17th, with a Fellowship Supper in the church vestry. It is hoped that as many people of the parish as can, will plan to attend to make the affair a huge success and to launch the Program of Progress with a warm feeling of community spirit and friendship. An interesting program, planned by the Program of Progress committee, will follow the supper, and should be of great interest to all.

A letter, concerning the supper, and a reservation card, to be filled out, have been mailed this week to all people of the parish.

"Operation - Doorbell", conducted by the Men's Club of the church, will take place Monday evening, February 10th. At this time members of the Men's Club will call on each family and will exchange tickets for the supper for the reservation cards.

Be sure to have your reservation card filled out and ready next Monday night, as you won't want to miss the kick-off for the Program of Progress.

The Fellowship Supper committee: Mrs. Ross Hopkins, general chairman; Mrs. Linwood Lewis, tickets; Mrs. George C. Bradley, Jr., supper; Mrs. Lawrence C. Young, table setting; Mrs. Robert Seeley, wiatresses; Mrs. Albert N. Heuberger, dish washers and clean-up; Charles W. Smith, "Operation - Doorbell" and Miss Beverly Turner, baby sitters.

WOMAN'S CLUB ENJOY FLOWER ARRANGEMENT PROGRAM

Members and guests of the Rochester Woman's Club enjoyed a flower arrangement program at an open meeting on Wednesday night. Mr. Charles Leonard, who is associated with Galligan's Flowerland in New Bedford, made beautiful arrangements suitable for all occasions, using baby roses, red carnations, white and yellow poms, gladioli and other blossoms.

At the business meeting donations were voted for the heart and polio funds.

There is also available to Rochester students information with regard to 1958 scholarships sponsored by the Division of Scholarships of the Mass. State Federation of Women's Clubs. Details may be obtained by calling Mrs. Timothy O'Brien, local scholarship chairman. There are ten schools listed which include two junior colleges, two art schools, nursing, secretarial, fine arts, fashion and design, law school and college of liberal arts. WORLD DAY OF PRAYER OBSERVANCE AT MATTAPOISETT CONGREGATIONAL CHURCH

A World Day of Prayer observance will be held at the Mattapoisett Congregational Church with a service at 3 P.M., The service is sponsored by the Women's Community Guild of the church, and the committee is comprised of Mrs. George C. Bradley, Jr., Mrs. Albert Heuberger and Mrs. Frederic E. Reynard. Sixteen women will take part in the service.

This is an interdenominational service to which Mattapoisett and Rochester women are invited to attend.

This is the 72nd observance of World Day of Prayer, held the first Friday in Lent. In the United States the Day is sponsored by the General Department of United Church Women of the National Council of the Churches of Christ.

On this day thousands of Christians in the United States and around the world will be united in a service of prayer and thanksgiving.

The service for 1958, which has as its theme, "The Bread of Life", has come from a group of women in Australia. Each year it comes from a different country.

HORNBLOWERS PRESENT THRILLER

The Hornblowers of St. Gabriel's Episcopal Church of Marion staged Agatha Christie's play, "Ten Little Indians" at the V. F. W. Hall February 14 and 15th. The group of talented amateur actors and actresses from Marion presented their usual polished performance adding another 2 evenings of fine entertainment to their record of other years. This three-act murder mystery was directed by Hilliard Lubin and Edwin V. Babbitt, Jr.

On the stage was reproduced a living room of a mansion on Indian Island, off the Coast of Devon, England. The set drew a spontaneous round of applause from the audience in appreciation of the set builders' artistry.

The play itself was fast paced and always absorbing. Briefly, the plot concerned 10 characters, all of whom were connected with the death of some person in their past lives. Seven were invited to the island as house guests, one as a secretary and two as a butler and maid by the unknown owners who actually did not exist. They were than cut off from the mainland and communication with the outside world. On the fireplace mantel were 10 little Indian images and a legend telling of each of their violent deaths. This was

a conversation piece for the gathering of house guests until they realized, to their horror, that the Indians were representing them and forecast the way in which each would meet death. As murder followed murder the Indians would disappear and those remaining kept a macabre score of those who remained to die. It became obvious that the murderer was represented among the guests.

In spite of the rapid elimination of characters the identity of the eliminator remained unknown until the end of the play.

It was an evening of chills and thrills and masterful acting by all of the participants. The stage and sound effects were remarkable - a thunder storm was reproduced in vivid realism.

This is the cast and we thank them for an entertaining evening. In order of appearance. Rogers, Dr. Raymond Baxter; Mrs. Rogers, Audrey Goodwin; Fred Narracott, John Sullivan; Vera Claythorne, Katheryn Babbitt; Philip Lombard, Robert Snyder; Anthony Marston, Winthrop Baylies; William Blore, Richard Peters; General MacKenzie, Frantz Warner; Emily Brent, Margery Dyer; Sir Lawrence Wargrave, Donal Durfee and Dr. Armstrong, Dr. Davis Gallison.

Those assisting back stage were: Richard Angle, stage manager; Stanley Palmer, assistant stage manager; John H. Somers, Production Manager; Mrs. Ralph Thacher, General Chairman; Mrs. Parker Converse, Mrs. W. Davis Taylor

A cold blast of "Southern weather" dumped a blizzard on New England over this past week-end. Mattapoisett pictures on the cover record the new snow that we have inherited. Ice has been forming and breaking up on the harbor as very cold nights glazed the surface. This week is a vacation for the young people in school, and the new snow will be a novelty to be enjoyed

MATTAPOISETT SCENE OF MURDER AND SUICIDE

Mattapoisett and State Police concluded an investigation this week of a murder and suicide of a Mattapan man and woman found slain in a secluded road off Aucoot Road, Mattapoisett. Police Chief Kinney and Patrolman Spagnoli were called to investigate the car which was noticed on two successive days, parked in the same spot, by school bus driver, Edward Sylvia. Mr. Sylvia thought the car might have been abandoned or stolen. Mattapoisett police found the bodies of the couple in the auto.

The couple apparently had visited in the area in the past and had returned to meet their tragic deaths.

TO THE CITIZENS OF MATTAPOISETT

In view of the on-coming election of March 4, 1958, I as a candidate for school committee would like you to know of my very deep interest in the town of Mattapoisett, the people who live here and especially in our young growing citizens.

Having been born and brought up in this town, I attended Center School as a youngster, graduated from Fairhaven High School, and am a registered nurse, a graduate of St, Luke's Training School for nurses.

My interest in the youth of Mattapoisett not only stems from my having three children of my own, but also from the fact that the parents, of many of the children now attending Center School, were my classmates. I have two daughters now attending Center School and my son is going to Vocational High. Another item of concern to me is the economic welfare of the town. Having been a member of a tax-payer's family for over forty years, I most certainly do have the Tax-payer's interest at heart also.

I definitely believe that a mother on the school committee would prove to be very beneficial and satisfactory because of a woman's point of view.

If I am elected, I sincerely pledge to all my cooperation in matters pertaining to the efficient operation of our school and every one concerned there-in.

REGIONAL SCHOOL VOTED BY TOWNSPEOPLE

In special town meetings of the three towns, Marion, Mattapoisett and Rochester approval of a regional school was voted by a tremendous majority. When the final results of the voting was announced, applause testified to the enthusiasm of the voters present. The first article to be voted on concerned whether or not to establish such a system and the vote was by ballot. If any of the three towns had not approved of the measure, then the school district would not have been formed.

In the Mattapoisett meeting, 177 voters were in attendance. The voting on the article began immediately after the meeting was called to order. Town Moderator Roscoe Barstow began to read the article to be voted until a motion from the floor brought the measure to an immediate vote with no discussion on the floor. The vote was overwhelmingly in favor-- 175 yes and 2 no. In Marion the total was 216 yes and 7 no. In Rochester, 150 yes and 31 no. This brought the three town total to 541 in favor and 40 not in favor.

The second article called for an appropriation of money for use as preliminary funds for the establishment of the school. In Mattapoisett $10,150 was voted, in Marion

The Mattapoisett meeting moved at a record pace. After Mr. Crampton, chairman of the Board of Selectmen, had expressed the appreciation of the Selectmen for the large turnout for this special Town Meeting, the article was read and voted immediately. After the second article was read, a motion was made by Mr. Frederick LeBaron that the money needed be taken from free cash in the treasury. Mr. Lemuel LeBaron, chairman of the finance committee, then explained that the free cash had been earmarked to be applied to lower the tax rate. Mr. F. LeBaron then withdrew the motion. The vote was taken and was unanimous by a show of hands.

Mr. Crampton's suggestion that the town's Regional School committee be given a rising vote of thanks by those present was enthusiastically carried out as the people expressed their appreciation of the fine work done by the group--Mr. Walter E. Longmore, chairman; John A. Hagen and Selectman George White.

In the forthcoming Town Meeting, we will decide whether to pass on to our children and to future generations of this town , a heritage that will stand them in good stead throughout their lifetime. Those of us voting will not be affected in the least. In fact, we will never know of its presence as it is a tasteless and odorless substance. I am refering to Fluoridation of our public water supply, along the lines being used nationally throughout the country and which is destined to go down in history as one of the great public health measures of all time. No public health program, at the time of its introduction, ever had as much scientific data based on human experience as is now possessed in the fluoridation program and none of it is bad. One hundred percent approval has never been achieved with any public health program and it can not be expected now. This is a prevention, not a cure, and is endorsed by all leading Medical, Dental and Health Associations. Just as your dentist tells you to brush your teeth, watch your diet and beware of refined starches & sugars so he recommends that you fluoridate the water supply as the most effective preventive dental health measure known. It's as easy as that. " What are we waiting for."

COVER PICTURE - THE BLUENOSE

One of the prides of the Georges Banks' fleet of fishing schooners. These sturdy fleet ships were the wonder of the maritime world. To their crews they were pleasure and business together. They raced from the off shore Banks to beat each other in. Early to market meant top prices. No racing yachtsman ever got more joy out of winning a big race as did these blue water schooner sailors.

The Bluenose was a Canadian ship and sailed many an International Fisherman's race. She sailed against the great Gertrude Theband which was rated a 16½ knot vessel in a strong breeze. The salt water men truly loved these vessels and no great wonder. Seldom has such beauty and power been combined. The graceful fast lines and power of these fishing schooners will be remembered for all time among deep sea men.

MATTAPOISETT JUVENILE GRANGE
PRESENT PROGRAM IN ROCHESTER

Thomas Gayoski was chosen to be in charge of having a new lighting system installed in the dining room. The Lecturers' March prize was won by Mrs. Annie L. Hartley. Mae Ellen Norton contributed to the birthday bank, and Mary Bettencourt also sent a contribution.

Invitations were received to visit with the Wamsutta Grange on March 11th and with the Dartmouth Grange on March 18th, when they celebrate their seventeenth birthday.

Editorial

Mr. Adlai Stevenson, two time presidential candidate, made a headline and a proposal on February 25, 1958. He urged that the United States of America ask that the Soviet Union join in a joint foreign aid program. His reasoning - the USSR would refuse and that such a refusal would unmask their motives for foreign aid. Mr. Stevenson is a humorous man. Maybe the idea was a jest to make the headlines. It did.

It may come as news to Mr. Stevenson, although in all fairness I doubt it, that the people in this country and in others know well the motives of the Soviet Union. The USSR is not bashful and possesses one of the most efficient propaganda machines in all history.

We know, you know, they know that the Soviet aid to undeveloped countries is to the distinct advantage of the USSR. They make no bones about it. While the U.S. quietly builds hidden dams in the backwoods, the comrades of Russia build roads in the towns and villages. The roads cost far less than the dams. BUT, in countries where ox dung heats the family hut, a ROAD built with big, noisy Soviet Machinery Labled in Large Letters USSR is something the people can see, understand and use. They, the people, don't know and care less that the United States gives a dam.

The Soviets demand and get return for their services in goods and in political advantage, in propaganda and respect. Even the most primitive mind can grasp this idea. THE SOVIET WILL DO SOMETHING FOR YOU BUT WHAT DO YOU DO FOR THE SOVIET IN RETURN. It's not a new idea - it is called trade. Remember the yankee trader - sharp boy. In short, the undeveloped country, wanting help, knows what is expected of him. He is not an object of charity. He is a trader and can hold his head up. Naturally, soon he will lose it. Meanwhile he holds his head way up high.

In direct contrast, busy Uncle Sam comes down from the hills to build a modern airfield for peasants who drive ox carts. He wants nothing but LOVE for his money, no strings attached. He gives charity with no demands. He gets full measure in envy and hate, What else!

Mr. Stevenson; Pres. Eisenhower; gentlemen of the government of the United States. People don't like charity. The air at the SUMMIT in the government may feel very rich but we, the people who pay the bill, are scratching pretty hard in the valleys of the lower brackets. We wonder if we can afford this LOVE that can't be bought at any price.

Mr. Stevenson, if we could have an equal share in the advantages that the Soviets enjoy in return for foreign aid, we would, most certainly, be fools not to join them. Except for the differences, slight as they may be, that we seem to be having with them. However, we all know that this is nonsense. The Russians have the trade and the respect and all we could bring to the partnership is our very expensive unrequited LOVE. The USSR always makes a better bargain than this. We should know.

Isn't it high time that our country, while keeping its obligations to the world in general, should give thought to its own citizens and see that their interests are protected first. It is an admirable thing for a strong man to give a blood transfusion to a sick man. It is not admirable for a strong man to open his veins to color red hearts to paste on valentines. This would be the same kind of (dam)foolishness..fatal eventually.

Let's help undeveloped countries so that they can take over SOMETIME and help themselves. Let's trade our help for something, anything of value to us. Let's make it clear what we expect in return for our money. Let's go out of the giveaway program and do business. The people in countries that we help have the right to self respect. Let them do business with us to our mutual gain and perhaps as they earn our help it will gain some value in their eyes. It may be that the citizens of the United States might even be dropped from first place on the international sucker list. We have been the undisputed champs for a long, lonely time.

ROCHESTER BOWLING LEAGUE AT BOWL-MOR ALLEYS

Hartley's Saw Mill set a new team total of 1701 to take four points from Rounseville Saw Mill in the Rochester Bowling League. Leo Lizotte hit 383 for Hartley's with S. Tuck Hartley's 309 was tops for Hartley's Garage in their 3 to 1 win from Herb's TV (B. Scott 319). Gibbs Farm Dairy (S. Decker

Humphrey as chairman for the group that was to report on the past history of Rochester. Ruth Pare was named chairman for the social environment report. Daniel Hebert was given the task to make a report on the natural environment of Rochester. Each chairman with his group started the project to bring in the needed material.

Visits were made to the library, to persons in town familiar with the town history and information was obtained from old town reports.

This research brought forth some very interesting information. Ruth Pare's report on the social environment brought forth the following information. The town itself has three main industries; lumbering, dairies and the cranberry industry with its cranberry bogs and packing plants. The lumber mills in town handle mostly pine and oak. The lumber is taken to New Bedford and other neighboring cities. Most of the lumber milled in Rochester is eventually used as knotty pine, planks and boards and the rest goes to the pulp mills. Box boards are turned into cranberry boxes, fish traps and apple boxes. Some lumber is used for parts and framing of small boats.

Rochester has within its bounds three dairies. White's Farm Dairy produces milk and it is taken to Acushnet and delivered to surrounding communities. Gibb's Farm Dairy products are delivered in Rochester, Wareham, the Cape and New Bedford. Most of the milk and milk products of East-Over Farms are delivered in Rochester, Wareham and Marion.

Cape Cod cranberries are grown, screened and packed in Rochester. Cranberries grown in Rochester have been received as far west

as California, as far north as Canada and to the deep south as far as the tip of Florida.

Daniel Hebert's group gave a report on the natural environment of the town. The climate is marine because of our nearness to the ocean. Altitude ranges from 0 to 1000 feet. Bodies of water within the bounds of town are Snipatuit Pond, Mary's Pond, Snow's Pond and the Mattapoisett River. Rochester does not have any mineral resources. It has a growing season lasting from 4 to 6 months. The soil itself is rocky and rolling but very good for farming. At one time Rochester boasted of large producing farms.

Allan Humphrey and his group gave an interesting report on "Old Rochester". On June 4, 1686 the lands of Sippican were incorporated as "Rochester Towne in New England", extending from the Plymouth line (about the middle of the present town of Wareham) on the east to Dartmouth and reaching inland as far as Middleboro. The new town received its name from the ancient city of Rochester in Kent County, England.

It is said that the name was suggested by the fact that the shores of Kent were celebrated by the Romans for delicious oysters. The oysters were found in rich abundance on the shores of Sippican.

The long and irregular shore line of Old Rochester forms several inlets or harbors, with a southeasterly trend. The long peninsula or "necks" between these harbors furnished the pasturage, but the inland, part of the territory was covered with heavy pines. To attract the settlers it was ordered that those "that first settled and are livess," should be allowed to make "ten barrells of tar apiece" on the commons for their own benefit. A large rock in North Marion is said to have been anciently the scene of various pows-wows and noisy Indian dances. To-day it is known as "Minister's Rock", having served as the pulpit from which the Rev. Samuel Shiverick, a Huguenot fleeing from Catholic persecution in France, preached the work to the first settlers in this wilderness.

Several years before the settlement of Rochester an event of historical interest occured in Sippican. On the neck to the east of Marion Harbor is an elevation of 127 feet above the bay known as Great Hill, now owned by John F. Searles. During King Phillip's war in August of 1677 this site was the scene of an important interview between Captain

Benjamin Church, of Plymouth colony fame, and Awashonks, the sqaw-sachim of the Sogkonate Indians, with her tribe. King Philip sent six men to Awashonks to engage her in his interest. She called her subject together and signed a peacy treaty.

The first corn-mill in Rochester was built by the town in 1704. Rochester was settled shortly before the fateful period of witchcraft. The town continued growing but in the middle 1800's the Town Meetings were the scene of heated discussions. This continued for a period of twenty years. Finally Marion was set apart in 1852 and Mattapoisett in 1857.

MATTAPOISETT VETERANS' MEMORIAL PARK

Last year the state built a small breakwater of rip rap at the point in the picture above at Ned's Point light. In one winter the sand has been brought in by the natural flow of tide and formed this sandy beach. It is very possible that if the breakwater were enlarged, a sandy beach would form along the entire bay side of the shore. The sand would be brought in by the water by the sea at no expense. This could be one of the finest beaches in the area. Except for the stones near the shore (which would be covered) the bottom is fine, smooth sand bar, perfect for bathing.

No people on earth have been so generously grateful to its servicemen as our American public. This park and the money which can be made available to develop it is a wonderful memorial to all Mattapoisett veterans. A living memorial, this place will be used for countless generations. It will not tarnish and age. The pleasure that it will bring will live in the memories of all who use both it and the beach. Mattapoisett honors its veterans by making their memory immortal through the name of this Veterans' Memorial Park. It is fitting that the Ned's Point Beacon is its symbol. One that stands out from the shore and from the sea. A light that means home, Mattapoisett, for all generations, past, present and future.

MATTAPOISETT TOWN MEETING AND ELECTION

The Republican form of government exists in its basic, pure form in only one place. That is the town meeting as practiced by the towns in the United States who have not grown too large to allow free debate on every question of town affairs. No other Congress in this country allows every voter to represent himself. Both in debate and vote the individual is directly responsible for appropriation and his local government. This is a precious and basic foundation of our form of government. It is the ideal form of government. We are among the fortunate who know true self rule

Knowing, firsthand, how difficult is is to vote fairly and wisely, we can grasp some idea of the problems of our national representa-

UNUSUAL TOWN HALL

The Mattapoisett Town Hall seems to be one of the most unique in the country. It has two fronts and two backs but no sides. Article 17 in the Town Warrant asked for an appropriation for black topping the rear of the Town Hall. It was pointed out from the floor that the black topping had been done through an appropriation at last year's town meeting. It then developed that the back of the hall depended on which way you looked at it and not the location of the front door. There is always a gem of humor at Town Meeting and this was not topped.

ARTHUR BARROWS, MATTAPOISETT RESIDENT, DIES

Within a year Mattapoisett has lost three elder citizens; Mr. Walter Bowman, Mr. Lemuel LeBaron Dexter, and now Mr. Arthur Barrows. Each of their lives covered a great span of Mattapoisett history.

Mr. Barrows died Thursday at Tobey Hospital, Wareham at 83 years of age. He is survived by his widow, Mrs. A. Edith Barrows who makes her home on Main Street at the Anchorage. Funeral services were held on Monday at the Mattapoisett Congregational Church.

In appearance, Mr. Barrows was a man of 60 and physically and mentally, a young man. On request he would recall for us names and events from Mattapoisett's past with remarkable ease. But, he talked and worked always for the future. His conversation and interest was for today.

In the 1954 hurricane the Anchorage was flooded and the furniture wrecked. Mr. Barrows went to work and rebuilt and refinished the antique furniture and interior. He rebuilt the fence and just recently finished painting the exterior of his house. Mr. Barrows was always busy. He wore his senior years with energy and a wonderful spirit.

ROCHESTER BOWLING LEAGUE AT BOWL-MOR ALLEYS

Pete Jefferson's return to the bowling wars inspired Rounseville Saw Mill to a 4 to 0 win over Bettencourt's Market in the Rochester Bowling League. Hartley's Saw Mill (L. Lizotte 348) and the Firemen (E. Figuerido 344) battled to a 2 to 2 draw.

Bob Crapo's 360 led D. Mahoney & Sons to a 4 to 0 victory over Herb's TV. Gibbs Farm Dairy (G. Chamberlain 362) did a white wash job on Hartley's Garage (E. Swift 318).

NATIONAL LIBRARY WEEK - MARCH 16-22, 1958

March 16-22, 1958 will be National Library Week, sponsored by the National Book Committee, Inc., in cooperation with the American Library Association to promote more reading, more support for library objectives, and to encourage interest in librarianship as a career.

Its theme for the first year is "Wake Up and Read". We cannot afford a country of lazy minds and the boredom that comes from knowing little and caring less. We cannot afford a nation of non-readers. One survey has shown that half the nation's adults live within a mile of a public library but only one fifth of them go inside.

Even if you are not ready to "Wake Up and Read", do find your local library and visit it! The Mattapoisett Free Public Library is located on Barstow Street. The hours are Monday, Wednesday, Friday and Saturday 3 to 5 and 7 to 9.

BROTHERHOOD TO SPONSOR DANCE

The Rochester Men's Brotherhood will sponsor a Saint Patrick's Day Dance in the Grange Hall Saturday, March 15th at 8 P.M. Music for square and round dancing will be furnished by Cal Daggett and his Woodchoppers.

PARENTS OF DAUGHTER

A daughter was born on Sunday, March 2nd to the former Joan Kenny of Snipatuit Road, Rochester and now Mrs. Wenchenback of Rockland, Maine. The baby has been named Deanna Marie. The maternal grandparents are Mr. and Mrs. Arthur Kenny of North Rochester.

TO THE CITIZENS OF MATTAPOISETT

Please accept my sincere appreciation for the expression of faith you have given me by your majority vote which elected me your Wharf Commissioner for the coming year.

This is my promise to you, one and all. I will discharge these duties faithfully, sincerely and with all possible fairness to all the boat owners of the town.

Again, Thank You!

EASTER FASHIONS SEEN AT WOMAN'S CLUB MEETING

A "Preview of Easter Fashions" was the title of a most interesting talk given by Mrs. Miriam Refuse of the Star Store before members of the Rochester Woman's Club. Many of the new dresses featured the new chemise style which is rapidly becoming so popular. Mrs. Refuse was accompanied by Mrs. Ellen Iddon and Mrs. Edna Sullivan. Spring style notes are shorter dresses, ropes and ropes of pearls, lovely floral print blouses and the cloche hat. A discussion period followed the talk.

Mrs. Henry B. Smith presided at the business meeting. One of the guests present was Mrs. Blanche Robinson of Wareham, who was introduced and spoke for a few minutes on the volunteer work being done at Tobey Hospital in the snack bar and for the gift cart. She expressed the hope that some of the members might be able to spare a few hours occasionally to assist with these worthwhile projects. One could volunteer to help in the snack bar one day a week from nine to one or from one to four in the afternoon. To assist with the gift cart would take only about an hour. For those interested in joining the Tobey Guild, dues until October 1st will be one dollar. After that date dues will be two dollars a year.

VISITED IN ROCHESTER

Mrs. Mary Watson and Mr. and Mrs. Louis Fregeau of North Attleboro were guests on Sunday of Mr. and Mrs. Arthur Reed of North Avenue, Rochester.

SERVICES HELD AT NORTH ROCHESTER CHURCH

Sunday services at 9:30 A.M. were held in the North Rochester Congregational Church with the pastor, Rev. Ralph Shirk, leading the service and Mr. Redfern, organist.

LETTER TO THE EDITOR OF THE PRESTO PRESS

OPEN LETTER TO THE TOWN MODERATOR

Mr. Moderator:

Definition of Impartial: "Not partial; not favoring one more than another; equitable; just."

The issue of fluoridation has become, nationwide, more of principle now than just another item of town business. In all its aspects it is an extremely important one as it touches us all. Since the vote went in favor of my own thinking, I should have left Town Meeting in a happy frame of mind.

This was not the case, however. More disturbing than the issue at stake was the manner in which this still controversial item was handled. The worthy proponents of the issue were allowed courteously two lengthy prepared speeches, while the opposition was reluctantly permitted to interject a few hurried comments before your decision to call for the "question" was made.

There was a lot more serious thought and sound thinking behind the opposition than had been expressed by Mr. LeBaron. Your method of "Rounding out" every discussion - by re-

cognizing Ike LeBaron at least once on every issue - does not allow for a complete and clear picture of an issue. He, bless him, is a most honest but also a chronic "againster" But between the two of you, you do put on a good show. Have no doubt about that.

Town meeting is the purest form of Democracy. None of us will dispute that or want to change it. It should be conducted by the Moderator (you are a capable one) - not by Moderator and End Man.

Respectfully,
Alicia S. Crabbe

P.S. Thank goodness "Ike" was on our side.

SLIDES OF PUERTO RICO SEEN AT GUILD MEETING

Mrs. Charles Smith of Somerset, guest speaker, at the meeting of the Women's Community Guild of the Mattapoisett Congregational Church, gave an illustrated talk on the island of Puerto Rico. During the devotional service, led by Mrs. William J. Spark, Jr., World Friendship chairman, the Second Mile Banks were collected and dedicated with a prayer.

During the business meeting, presided over by Mrs. Frederic E. Reynard, Mrs. Horace Darrah, flower chairman, asked that those who would like to purchase potted plants for the altar on Easter Sunday to contact her.

The Development of the Perfect Anti-Fouling Bottom Paint

- One coat had to effectively prevent fouling and penetration by borers or shipworms for a full year or more.
- It had to be consistent in performance, provide the same protection in all waters and in all seasons.
- It had to retain its effectiveness when the boat was hauled.
- It had to have a controlled toxic leaching (releasing) rate fast enough and consistently above the critical leaching rate at all times so as to prevent attachment during the period of heaviest fouling.
- It had to permit application over previous coats of the same material without nullifying any remaining anti-fouling effectiveness—as is usually the case with other "hard" paints.
- It had to be safe to apply, without undue hazard of toxicity to humans.

about to start up the tourist dynamo for a new season. There is no sign of any lack of confidence on the Cape. Everywhere new giant motor courts are in the finishing stages. The established overnight places are adding on or doubling their capacity. After a tremondous 1957 season, the Cape is aiming for a bigger one this year. Let's hope they make it because what's good for the Cape is good for us. We run best on sun power too.

Our cover picture this week is a watercolor painting of a Cape Cod cottage in Dennis. The magnificent old tree in the yard sets off the neat lines of the home. This house is back off the old highway 6A, and we came across it because we saw a spire of a church shining on the hill and went to investigate it. The church turned out to be newly built. It must have been constructed from the old plans from another church, however, because the colonial, simple lines are typical of the early Cape architecture.

Right now the roads on Cape Cod are yours almost alone. The sun is hot on the endless dunes and they belong to you alone. This is the season for exploring the side roads and

the beach roads. That is the magic of the magnetic, sandy hook, for you can make a new discovery every trip there. The scrub pine, the white sand, the neat cottages and the endless ever changing blue sea have a flavor found nowhere else. Cape Cod is a delight to the eye and food for the spirit. The new Mid-Cape highway is a wonderful addition. It allows you to stay down so much longer to meander on the old winding roads and then come home quickly.

It's there waiting and good at anytime, but expecially now in the Spring.

RUBBISH COLLECTION EARLIER

Mattapoisett rubbish collection will start one hour earlier this week and continue through the summer at the earlier time.

Jethro Ashley was representative of the Sippican Pomona Grange and also of Acushnet. He spoke briefly.

LIBRARY WEEK

Soon there won't be any weeks left and we will have to have Peanut Sunday, Horseback Monday, Cranberry Tuesday, etc. throughout the year.

Kidding aside, this is Library Week and if anybody deserves a week I think the libraries do. Recently on the TV show "Person to Person" Mr. Charles VanDoren was asked "Why do you read books?" He said, "For entertainment, for adventure, for travel and for ideas".

Books are the only method by which our minds can be on familiar terms with great minds of the past and their ideas. Through books you can be a friend of any and all of the great literary minds, of whatever period of history you choose. The screen of imagination is so wide and rich that the images recorded there by the book will surpass all other graphic methods.

I just put down a book titled "On the Beach" by Nevile Shute. Nothing I have read so far brings home the horror of the H-Bomb as does this novel. This is the kind of book that makes the reader think. It should be required reading for all heads of government.

It is the way with almost every good book. The movie or the play can be good but never as good as the book it was made from.

PUPILS PRESENT OPERETTA, "THE MAGIC BEANSTALK"

A capacity audience of more than 300 parents and guests were entertained by Grades 2 thru 6 at an operetta, "The Magic Beanstalk", presented at the Rochester Consolidated School auditorium for the benefit of the teachers' scholarship fund.

The over-all perfection of the production gave an indication of the hours of work put in by Miss Barbara Trombley, music supervisor at the school. She was ably assisted by Miss Cecile Lundell, Mrs. Violet Tillson and Mrs. Thomas Oldfield in the rehearsals of dialogue, scenery and costumes. Properties were handled by Talbot Pierce and Richard Gould.

Act 1 opened with the villagers composed of pupils of Grades 5 and 6 giving renditions of "Heigh-ho Maidens and Men", and "O, Jack's

Come Back". Jack, superbly acted by Daniel Hebert, captivated the audience with his carefree manner and with the villagers accompanying him, sang "I've Sailed the Seven Seas". Barry Coggeshall, realistically costumed as Captain Kidd, gave forth in fierce tones "O, I'm the Terrible Captain Kidd".

Onto the stage rushed battle-scarred, fierce looking pirates, dressed appropriately, who sang "We are Pirates from the Spanish Main". Pirates included Roger Nolan, Raymond Daggett, John Andrade, Frank Cabral, Steven Silva, James Reed, Charles Nunes, Albert Nunes, Roger Correia, Henry Thompson and Donald Hardy.

Jack's mother was played by Nita Norton, who sang "Dream Song". Pirates and villagers joined in the singing "Come to the Fair" with Michael Bearse as the popcorn vendor, Walter Pierce, hot dog vendor and Thomas Kenney as the peanut vendor.

Mrs. Arlene McCulloch's Grade 2 entertained with selections played by the rhythm band with Peter Balzarini as maestro. Mrs. Helen Gibbs' Grade 3 were appropriately dressed as magic green beans. Quaint little Dutch boys and girls, portrayed by the two Grade fours, under the direction of Mrs. Katherine Blair and Mrs. Ruby Lindsay, sang "The Windmill Song", and presented a Dutch dance.

Act 2 opened with the pirates and the villagers singing the "Jolly Miller". Next on the program were 10 oriental maidens in Chinese kimonas singing a Chinese selection. Portraying the maidens were Linda Oliver, Nannette LaPointe, Leona Fearing, Janice Denham, Katherine Bastien, Elaine Tilton, Carole Swider, Shelby McConnell, Esther-Ann Chamberlain and Ruth Pare.

bourine ushered in Gypsy Ann, played by Donna Howes, who sang a gypsy song and showed remarkable stage presence.

Complete with top hat, long tails and mustache, Foolmesi, the magician, acted by Charles Gifford, captivated both the audience and villagers with his magic tricks. Foolmesi sang "I'm the Seventh Son of the Seventh Son".

Janice Lawrence entertained the audience between the acts with a monologue entitled "The Little Darlings", portraying the trials and tribulations of a babysitter.

In the third act in comes Blunderbuss roaring in a loud voice "Fe, fi, fo, fum I smell the blood of an Englishman", and carrying a club swung at Jack menacingly. Blunderbuss was portrayed by Frederick Tavares.

In the cast of the villagers the first, second, third, fourth, fifth and sixth women were Dorothy Reed, Doris Hartley, Ann Westgate, Ruth Pare, Esther-Ann Chamberlain and Shelby McConnell. First, second, third and fourth men were Brian LaPointe, Allen Humphrey, Ronald Carreau and Douglas Rounseville.

Janice Lawrence was the announcer for the complete program and did a remarkable job.

In the finale the complete cast sang various parts of the operetta, with Julianna the cow present, portrayed by George Bassette and Edward Ouellette, and last but not least was the hen (a real live one) that produced the golden eggs.

"The Magic Beanstalk" received hearty applause from the appreciative audience.

REPUBLICAN PRE-PRIMARY CONVENTION TO BE HELD IN JUNE

Chairman of the Republican State Committee, Daniel E. McLean of Beverly, hailed the action of the Republican State Committee taken March 10 to call a Pre-Primary Convention of the Party to be held in June.

Echoing remarks made at the State Committee meeting in Boston on Monday night by Minority Leader Representative Frank S. Giles of Wareham, McLean stressed the importance of securing representation of all groups from all parts of the State. He agreed with Representative Giles that one handicap in the 1956 election was the fact that five out of six of the Republican candidates for State-wide office had come from Middlesex County.

The Republican State Convention will be held in the Worcester Municipal Auditorium on June 14. Seventeen hundred delegates, or 115 more than in 1956, will be elected before the end of May by Republican City and Town

ROCHESTER BOWLING LEAGUE AT BOWL-MOR

Gibbs Farm Dairy, with Rufe Ellis hitting 373 and Art Tripp 365, put the squeeze on Rounseville Saw Mill in the Rochester Bowling League at Bowl-Mor. The Dairymen took all four points and chopped Rounseville's lead to 1 point in the race for second half honors.

Hartley's Saw Mill (R. Gurney 343) whipped Hartley's Garage (W. Wojtknowski 343) 3 to 1, to keep their chances alive.

B. Burke's 343 topped Bettencourt's Market as they dressed off D. Mahoney & Sons (B. Crapo 348).

Nothing went right for Herb's TV as they dropped 4 points to the Firemen. Art Kenney had 328 for the Firemen and Bill Scott 322 for Herbs.

COMMUNIST INFILTRATION

The investigation of communist activities that has just taken place in Boston has revealed more the danger of the plans of this conspiracy against our government. It has all the more impact when it is uncovered in our own section among people who work and live here. Until facts are presented in a committee such as this, it is almost impossible to believe that people calling themselves United States citizens would work actively for a foreign power against their own country and people. And yet it is true. We listened last week to a parade of people named by Counter-Spies Armando Penha of Fairhaven and Mrs. Carol Foster of Nashua, New Hampshire.

As communists many hold positions of power and trust in industry and in labor unions. We heard them all repeatedly invoke the 5th Amendment of the Constitution of the United States in order to hide their activities on behalf of international communism. These people who work tirelessly for the Russians are dedicated to destroy the very constitution that protects them when they testify. How are such fanatics recruited from our own people? What is the great attraction of Russian slave labor and dictatorship? It is beyond the understanding of most of us. Yet, otherwise intelligent people are so attracted that they tirelessly carry on the work of our enemies. It would be interesting to note the reaction of these communist "americans" if each were offered a one way ticket to the chosen land, and forced to leave this country. No doubt there would be howls of anguish and much quoting of the Bill of Rights as these

Editorial from page 8

"devils" would fight tooth and nail to remain in this country. The irony of it all is that they would fight through the courts using laws of human rights that they are so eager to destroy.

Thank heaven that we have citizens who give up years of their lives in the interests of the United States, as counter-spies for the FBI. Of all the hardship and sacrifice made for this country, these dedicated people know the loneliest, the most dangerous kind of service. Risking their own lives and that of their families, losing friends, working long hours for the communists, literally giving up years of their lives without pay or recognition, these counter-spies deserve the highest honor and respect that is possible to bestow, once they are known to us.

We will need patriots of this caliber as long as the communist is with us. Just as they infiltrate our key industries and unions to destroy so do our counter-spies infiltrate the cell to reveal them. A communist is like something you find under a rock. It works best under cover and hates to be known to the world.

It is a safe bet that the communists and their dupes will recognize these people with slander, with threat and intimidation without let-up. It is a sad fact that more than once in our memory disgrace has been the reward of Americans fighting communism and it has happened in high places. If this is a "Red Herring" then it certainly is a ripe one.

MASSACHUSETTS REPUBLICAN STATE COMMITTEE

Representative Joseph D. Saulnier (R) of New Bedford warned his Massachusetts colleagues Wednesday that "about 40 New Bedford scallopsmen would be forced onto the beach and on the public welfare rolls" if an act to amend the laws relating to shellfish was passed hastily.

The legislative petition, filed by Representative Albert H. Zabriskie (D) of Newburyport, would require persons engaged in the commercial distribution of scallops, as in the case of shellfish, be subjected to more costly equipment and transportation regulations.

"None of the scallopsmen I know would be able to meet such rigid requirements and remain in business", Representative Saulnier said. "I urge that this suggested amendment be given further study before we permit it to aggravate the already acute unemployment situation. None of us wants to legislate anyone out of business".

MASSACHUSETTS REPUBLICAN STATE COMMITTEE

Chairman Daniel E. McLean of the Massachusetts Republican State Committee, has notified Republican city, town and ward committee chairmen throughout the state about their individual quotas and selection requirements for delegates to the Pre-Primary Convention at Worcester on June 14.

A total of 1700 delegates will be named and Chairman McLean set May 24 as the deadline for their certification by the State Committee.

DISPLAYS OF ALASKA SHOWN AT CUB MEETING

The land of Alaska was the theme of the Mattapoisett Cub Scout Pack meeting held on Monday, March 17th. Skits and displays showing the Klondike country were given by the cubs, under the direction of the Den Mothers.

A kayak race, with the kyaks made by the boys, was won by Dana Tripp.

Displays by the different dens were as follows: Alaskan Village, Den 1; Relief map of Alaska, Den 2; and Eskimo village with seals and ice, Den 4. Den 3 presented a skit showing the hardships of gold mining.

Den 5 portrayed the coming of man to Alaska ending with Uncle Sam and followed by the tax collector.

Robert Silsby was graduated to Boy Scout Troop 53 during a candlelight ceremony, conducted by Fred Bieringer, Cubmaster. Scoutmaster, Allen Perkins, presented Silsby with his certificate and tenderfoot pin. Dexter Morgan became a Webelo, the last step before becoming a Scout.

The Akela award went to Den 1, Mrs. Clifford I. Tripp, Jr., Den Mother.

Those who received awards were Dana Tripp, Bear Badge; Philip Ledoux, Jr. and Dexter Morgan, Lion Badge and gold and silver arrows; Paul Eldridge, Wolf Badge; Thomas Brownell, two silver arrows; Michael Cormier, gold arrow; Robert Sherman, Bobcat Badge; Barry Denham and Ronald Knight, second-year pins and Leon Lewis, silver arrow.

Other awards could have been presented, but because parents were not present the cubs were not able to receive the honors they had earned. Cub Leaders request that parents help their sons by attending the pack meetings.

Dr. Morgan, who was elected president of the NTA last May, is professor of organic chemistry at Mount Union College in Alliance, Ohio. The NTA is the national organization for 3,000 Christmas Seal agencies in the United States and its territories.

He is visiting six other tuberculosis associations in the state during the week of March 24 in an effort to learn how Massachusetts TB and health associations fight tuberculosis and work for the improvement of the public health. The state's 25 tuberculosis associations have raised almost $850,000 to date in contributions for the 51st annual Christmas Seal Sale.

Dr. Samuel K. Stewart, Plymouth, vice-president, said that "Plymouth County is fortunate to have such an effective and energetic volunteer as its speaker. Dr. Morgan is well qualified in terms of understanding the programs and relationships between local, state and national associations, and he should be able to tell us much of what is being done all over the country to continue the fight against tuberculosis."

The office of Lady Assistant Steward will be filled by Martha Heuberger when the State Juvenile Grange Day is held in Westboro on April 26th.

A tentative date when the juvenile degree will be exemplified is May 9th. Officers will fill the chairs at the Dartmouth Juvenile Grange this Saturday afternoon. They will meet at the Grange Hall at 1 P.M. for transportation.

A new project is the sale of Katherine Beecher Butter Nuts and each member is to be responsible for the sale of at least one box.

Baby bibs were taken to the meeting for the "New for the Needy" week, a project of the Needle Work Guild of America. Additional bibs may be taken to the matron, Mrs. Helmuth Heuberger, Jr., Saturday.

Regular and random patterns

YOU HAVE a choice of patterns in Nu-Wood acoustical tile. In the random drilled pattern, perforations of different diameters are spaced with pleasing irregularity over the tile surface.

In regular drilled Nu-Wood tile, the holes are arranged in soldier-like formation. Both types have the beautiful, light-reflective Sta-Lite finish that keeps its new appearance for years.

We express our appreciation to the hundreds, who quickly and generously made a success of the W.B.S.M Saco-Biddeford, Me. good neighbor campaign.

We congratulate Hal Peterson and W.B.S.M. and are proud to be a member of your community.

DOT'S DONUTS - RT. 6, FAIRHAVEN

GOOD NEIGHBORS

Ken and Dot LeValley of Dot's Donuts speak for us all in their expression of appreciation which they have written above.

If you are a WBSM listener, then you know of the response given to Hal Peterson's appeal to radio listeners of this area. Mr. Peterson, WBSM disc jockey, started the spontaneous campaign with a story of the plight of the people of Saco-Biddeford, Maine. A taped interview with the radio station in these towns brought out the great need for friendly help. Two manufacturing plants which furnished the chief livelihood for many people of the towns had been closed for so long that social security had been exhausted for many. Local charitable groups had been taxed to the limit in their efforts to help people in need.

After the announcement on the air, a call was received offering a truck to transport the food and clothing to Maine. Food and clothing began to collect within minutes and the amount mounted as the days went on. More than 7,000 pounds was presented by Mr. Peterson to the people of Saco and Biddeford. He found them wonderfully responsive for this expression of friendship from the people here.

Radio Station WBSM has performed a public service of the finest kind in this recent instance. We can be sure that a link of friendship has been forged between our people and the people of Maine that won't be forgotten.

ROCHESTER WOMAN'S CLUB SEES DISPLAY OF HOOKED WALL HANGINGS AND FLOOR RUGS

Mrs. Frederick C. Underhill of Rochester gave a talk and exhibited some of her beautifully done hooked wall hangings and floor rugs before an appreciative audience at the Rochester Woman's Club. The scenic wall hangings, one a rural snow scene and another of an old covered bridge with church spire in rear, were so finely done that even on close inspection one might mistake the work for needlepoint. Mrs. Underhill is a member of the club.

Mrs. Anthony P. Tarvers of Provincetown and First District Director of the Cape area was a guest of the club. She was accompanied by Miss Flora N. Peters, a past president of the Nautilus Club in Provincetown and presently a director in that club and First District Representative on American Home. Mrs. Tarvers is concluding her two years as director and mentioned that she would be district representative next year for "Federation Topics", the Woman's Club magazine. In her talk, Mrs. Tarvers mentioned the value of community service, federation work and the coming annual convention in Swampscott on May 12, 13 and 14. Mrs. Tarvers is also a hooked rug enthusiast.

A luncheon, open to all members, was served to the members and guests at 12:30. Mrs. Harry Coggeshall and Miss Beryl Coggeshall were hostesses and were assisted by members of the executive board. The floral arrangements on the luncheon tables were springlike with pussy willows, daffodils and pansies gracefully arranged in low containers. The

mouth County Health Association last week at the Brockton VA Hospital on the public complacency relating to tuberculosis. Dr. Morgan stated "The biggest problem we still face in the fight against tuberculosis is public complacency. Development of new drugs, new techniques in chest surgery, new programs in rehabilitation have enabled us to restore many Americans to social and economic usefulness. This is fine, but because of these successes the public thinks that TB is no longer a problem."

Dr. Samuel K. Stewart, vice-president, who presided, stated that on a local level there were 100 new cases of tuberculosis found in Plymouth County in 1957. In February, 1958, there were 86 cases of tuberculosis being treated in Plymouth County Hospital.

Interesting progress reports were presented including: Budget for 1958, Casefinding Committee, Membership Committee and Seal Sale for 1957.

Mrs. M. R. Barbadora of Hingham gave the Seal Sale report which showed that once again returns were over and above last year's figure. She announced that $49,933.79 has been raised, reaching an all-time high and a milestone for the association. Mrs. Barbadora also praised the cooperation of the Seal Sale chairmen and the excellent support of the people of Plymouth County to this campaign.

Those attending from this area were Mr. Joseph W. Farwell of Mattapoisett and Mr. Egbert G. Driscoll of Marion.

The purpose, "first and foremost of this trust, shall be the care, repair, restoration, maintenance and up-keep of this meeting house".

The Board will grant the use of this building for religious services and religious ac-

GOVERNOR'S COUNCILLOR C. A. HERTER, JR. ACCUSES DEMOCRATIC ADMINISTRATION ON TV

Governor's Councillor Christian A. Herter, Jr., candidate for the Republican nomination for Governor of Massachusetts, declared: "I accuse the present Democratic administration in the executive offices at the State House of perpetrating the biggest fraud ever attempted at the expense of the people by sponsoring legislation that will ultimately destroy job opportunities for those it claims to protect.

"Although temporary assistance may be necessary, you do not solve the probelm of unemployment by handing people shovels to work on public highways; nor do you create job opportunities this way."

Addressing a television audience from a Boston station, Councillor Herter added that "we must face facts, unpleasant though they may be. Jobs are being lost to Massachusetts workers, not because we are in a temporary national economic slump, but because employers, large and small, will no longer continue to expand their operations in this State to make jobs for our people.

"When a company can no longer operate in Massachusetts in competition with companies in other states, it moves out and Massachusetts workers are thrown out of their jobs. This is happening every day because of the hostility of the Democratic administration in the State House.

"I accuse this Democratic administration of sponsoring legislation to get votes, legislation that will ultimately destroy job opportunities for those it claims to protect.

"We need a change in attitude; we need a

change in administration for another major reason, among many reasons. The ever-increasing cost of our present complex State government is being paid for by increased taxes on income, on real estate and in the form of hidden sales taxes.

"The taxes hit everybody -- the worker, the home owner, the businessman -- all of us. Forty years ago this State government was reorganized to provide that all government business should be conducted by 20 departments, including those of the state-wide constitutional officers. This made sense in 1919.

"But today we have 177 separate agencies, boards, directors and commissions. The result is a hopeless hodge-podge of overlapping, conflicting, confusing and expensive separate units of government. This chaotic and expensive bureaucracy can be corrected only by a thorough review and reorganization of our entire governmental structure from the ground up.

"What is needed is a new Constitutional Convention of intelligent, public-spirited citizens determined to give Massachusetts the face-lifting it so badly needs.

"Although the present Governor has made offhand references to such a Convention, he has, as usual, talked a good game and done nothing. One of my major objectives as Governor will be to try to bring about such a popular Convention.

"I intend to lead in a fight -- first for jobs for the people of this State, not the politicians; second, to make of Massachusetts a homeland of which we all can be genuinely proud."

SAFETY DRIVE BY THE LIONS CLUB

The Mattapoisett Lions Club is joining with Lions Clubs throughout the State to promote safety on the highway. To bring the campaign to a focus and make the public safety conscious Sunday, April 27th has been named SAFETY DAY. If this day will serve to make motorists take extra care with their driving and can cut down on highway accidents for that day, then perhaps it can be carried over for the other days of the year. The killing and maiming that occurs daily and week-ends on this nations' roads makes war look like child's play. Most accidents can be avoided. With alert driving, courtesy and automobiles in good condition many deaths need not take place.

Please help the Lions Club make a perfect safety record.

Note - Lights at Route 6 and Main Street, Mattapoisett. Cars tear through the red light on Rouse 6 regularly. When turning onto Route 6 from the town, on the green light, make sure that no one is planning to proceed through the red light at a speed that will cut your car in half. Lose a minute, when you must, to be careful. It may save a lifetime lost. You're just as dead when you had the right of way.

We boarded the FORTUNE and got some rivets, We got our whale cut in at midnight, then took in sail with a full ship.

July 14th, Tuesday. At daylight call all hands, clear up decks, make sail with double reefed topsails for Home, Home. There is magic in the word. Tis the resting place of the wanderer. FILM TO BE SHOWN AT MARION ART CENTER

The film, "Louisana Story", will be shown at the Marion Art Center Thursday, April 24th, at 8 P.M. Admission is by membership card only. This film is the last of four made by the late Robert Flaherty. It depicts the lives of the Cajuns following the round of the seasons as their ancestors have for 200 years.

It shows in particular a twelve-year old Cajun boy whose days are followed as he plays, hunts and fishes in the swampland, and as he fights a giant alligator which he thinks has devoured his pet raccoon.

There follows the drama of locating oil 2 miles down and bringing it to the surface -- a drama compacted equally of the dangers involved, the skill, nerve and instinct of the amazing fellows who faced them. The photography is beautiful, the music superb and the discovered youngsters irrestible.

Sidney Smith, at present of Marion, will give a brief talk on his experiences and the producers with whom he was associated in the film.

MR. JAMES POWERS SPEAKS ON AFRICA AT MATTAPOISETT WOMAN'S CLUB GUEST NIGHT

On Thursday, April 24th, the Mattapoisett Woman's Club held their annual guest night in the vestry of the Mattapoisett Congregational Church. The educational program presented was on the subject of foreign affairs in the continent of Africa. Mr. James Powers, Foreign Affairs Editor of the Boston Globe was the lecturer. He was introduced by Mrs. Leonard A. Burnham, program chairman.

Mr. Powers spoke of the political awakening of the peoples of the continent of Africa. It seems that now the drums of the Congo, the Sudan, throughout the vast recesses of the dark continent now quicken. The pulse of this mighty continent surges and picks up the tempo. The people of Africa flex and tear off the chains forged by their masters, the colonial whites. They will not be denied. The last great continent on this earth with regions of still unknown and unassessed wealth is emerging from the darkness to take a prominent place in the sun and the economic welfare of the world.

In ancient times, the great civilizations of the earth were centered in Asia and the great valley of the Nile. The great trading Junks of the Emperors of China made their way from Cathay to India, and on to the coast of Africa. The land of the Pharaohs provides some of the great archeological finds of all

time and reveals the ancient, high civilization of the Ancients on the African continent. In the digging there, have been discovered rare treasures from China which tell of the ancient link of Asia and Africa. The people of Africa carry in their veins the blood of Asia, the blood of Arabia and of India. The concurring legions of Caesar doomed the great civilization of Egypt. The expanding sea empires of Europe carved the great continent into sections of their colonial holdings, the great wheel of history turned the Africans down into the darkness and slavery of subjection. Now, the turning is completing its orbit. Nasser, dictator of Egypt, has cast out the corrupt Farouk, caused the British withdrawal from the Nile at Suez. He is forging strong links with the Arab states and has felt secure enough to play the East - West poker game for Russian arms. Algeria, in the struggle against France, has caused the downfall of the government of France again and again. Once great France, now so unstable that they teeter-totter constantly on the brink of chaos. The new nation of Ghana emerges and heralds a new beginning, an example and hope all along the coastal regions. There are still many colonial empires. Two years ago the blood bath at Kenya against the British minority shocked a watching world. In some instances, the colonial government, seeing the clear handwriting on the wall, is preparing the local native populations for self rule by training them in different levels of government operation. This is the kind of preparation that the British gave the Indians. In other instances, the Africans are allowed to hold no position and are given no training in government. These are danger zones.

We need our ties with Africa. As our, once

great, resources are depleted, we need access to the trade for raw materials in the treasure trove of this continent. Minerals, industrial diamonds, oil from the Sahara, who knows what riches abound here. We have been stumbling and feeling our way in the diplomatic wilds. Recently, for the first time, we have set up a state department ministry to deal with African affairs. According to Mr. Powers the situation looks hopeful. A struggle, however, is inevitable. If Russia can dominate Africa, then Russia outflanks the Mediterranean Sea. In that case, Europe has had it. Russia is going to go all out and is making headway, as we know. The new nations of Africa are going to be just as touchy, headstrong, independent and nationalistic as we were when we threw the British off our backs and began as a nation. In our dealings with them, we will need a world of patience, generosity and restraint. Here is the area where we cannot afford to fail. The penalty for neglect in this area may well be the loss of Europe as well as the resources that this nation needs to survive.

In general, and in our words, we have attempted to present some of the main points brought out by Mr. Powers in his talk at the Woman's Club. Personally, we had not realized, until now, the tremendous struggle developing there and the consequences if we fail. This is the world arena to watch closely.

EDITORS NOTE ; No one dislikes Mr. Dulles, or respects him, more than the Russians.

Mrs. Howard H. Smith, president, welcomed the members and guests, and the invocation was

JUVENILE GRANGE MEET

The Mattapoisett Juvenile Grange No. 43 held its bi-monthly meeting Friday night with the master, Terry Cray, presiding. Reports were given by the sunshine, bird and conservation and the educational aid committees.

Martha Goodwin, Carl Hubbard and David Viera were voted to membership subject to initiation.

The Lecturers Program: The lecturers march was won by Mrs. Barbara Heuberger and Wayne Cray. Slips were drawn by members and officers to show the office they were taking for the "mix-up". This new set of officers marched in to their various stations with Joey Costa presiding as Master.

A most interesting talk on the ethics of baseball was given by Robert Mathieson, a former pitcher for the Braves Farm Team. He spoke of his work with the team, of his start as a student at Fairhaven High School and his experiences with big league players. He also stressed the importance of the boys in Mattapoisett playing ball on the different teams, remembering their obligation to the people giving their time to Little League work. This opportunity given them will make a fine foundation for a good baseball player, building up good clean, strong bodies. ~~A question~~ and answer followed.

The lecturer, Betsy Bushnell, expressed her thanks to Mr. Mathieson for coming and giving such a nice instruction talk.

Refreshments were served by Ronald and Earl Scott.

Dancing concluded the program with record music by Joey Costa.

DISPLAYS OF PRACTICAL ARTS PROGRAM SEEN IN ROCHESTER

A large and appreciative audience was impressed with the display of work done by the members of the Rochester Practical Arts program in the decorated ware class 3 and the chair caning class. The articles were on display in the Rochester Consolidated School auditorium.

Miss Ruth Atkinson of New Bedford was the instructor for the decorated ware 3, which is the professional type of work in hand decorating items in the Early American design.

There was a large display of handsomely decorated trays. Included were a Chippendale of graceful design with rococo ornamentation predominating. Empire and Coffin trays on display showed the long arduous hours of workmanship. A Williamsburg tray reflected the elegance of the 17th century. Another delicately decorated tray was an authentic reproduction of the gallery or lace edge tray. All were of oil paint antique finish either in gold, silver, copper or aluminum.

Instruction in this class included glass painting and mother-of-pearl inlay. Glass painting is used to decorate clock doors and bannister mirrors and sometimes lids of

boxes. On display were mirrors and boxes done by this procedure. The thinest of glass is used for this type of work. One side of the glass is varnished and set aside to dry. Then the piece of glass is placed face down and the painting is done on the reverse side of the glass.

Some members of the class did outstanding work in mother-of-pearl designs. The mother-of-pearl is the inside of certain sea animals, such as the pearl oyster, the abalone, and the nacre, who manufacture layers of glowing color lining in their shells. The colors vary from pale grayish-blue and pink to purple and green. In doing this type of work, the underside of the pearl is painted with white shellac and then pressed firmly down on the item to be decorated. Then the choice of design wanted is painted around the mother-of-pearl inlay. Work of this type requires long hours and a great deal of patience.

Of interest to many was the child's pail and shovel set that had the three little pigs painted on the outside of the pail and on the shovel itself there was the cutest little pink piggy. An attractive tea caddy was on display having been decorated in Early American design.

Many articles on display were in the gold leafing design. The gold leaf itself comes in sheets about 4-inch square and in a number of gold shades. Gold leafing is used in decorating a fine border on lace edge trays. Examples all types and also on furniture of the Early American design.

The articles, done in oil, were especially

rich and accurate in color. It was evident by the quality of the work on display that the students are a credit to their instructor, Miss Atkinson. Members enrolled in this class are Mmes. Jane Seaver, Althea Fearing, Barbara Hartley, Grace Hartley, Katherine Hartley, Helen Howes, Pearl Metcalf and Calvin Coggeshall. Persons from other towns taking instruction in this course are Mmes. Evelyn Love, Doris Crippen, Chester Vose, Harry Coggeshall and Miss Beryl Coggeshall all of Marion and Mrs. Louis Gonet of Acushnet.

Mrs. Helen Tupper of Carver instructed her class in the fine art of chair caning. Through her instruction chairs are being used that were just sitting in some dark corner collecting dust because of broken cane seats. Mrs. Tupper taught her class the form of weaving known as the seven-step method. Before weaving can start, the chair must be cleaned of any broken cane or dirt from the holes. Any nails or tacks in the chair must be removed and attention must be paid to see that all holes are free for the cane to go through. If not, a hole must be bored through. The inside of the frame of the chair must be smooth so that no sharp edges will cut the cane.

The class then starts weaving, and one strand is always soaking. As you pull, you have to be very careful so that the cane will not tangle or tear. Weaving is always done with the eye so that you do not roughen or break the strand.

Of interest was the baby high chair with the wax cane seat. There were straight back chairs of all types and rocking chairs. Also on display were some chairs with rush bottom seats. Members enrolled in this class were Mmes. Florence Taylor, Marian Hartley, Alice Hartley, Alice Humphrey, Bernice Hardy, Helen Gibbs, Alberta King, Christine Rounseville, Althea Lawrence, Edna Chadwick, Lillian Jackson and from North Carver, Mrs. Mary Peck.

ROCHESTER MEN RECEIVE CERTIFICATES

Seven Rochester men received certificates for completing courses in instruction of the seventh annual Plymouth County Police Officers Training School held at the Silver Lake Regional High School, Kingston. Rochester men who received certificates for having completed the 15-week course are Chief Elmore Howes, Sergeant Wallace Weller, Patrolmen Victor St. Aubin, Peter Balzarini, Wesley Winslow and Floyd W. Taylor, Fire Chief Daniel L. Hartley. Those having perfect attendance for the course were Weller and St. Aubin.

Singing of "The Star Spangled Banner" was led by Chief Elmore Howes of Rochester and the men and their guests were welcomed by Howard F. Levings, director of the Plymouth County Bureau of Criminal Investigation.

Accompanying their husbands were Mmes. Howes, Weller, St. Aubin, Balzarini and Hartley. Mrs. Taylor was unable to be present and Miss Mary Lou Hill of Freetown was the guest of Mr. Winslow.

The guest speaker was Sheriff Donald R. Tulloch of Barnstable. Representatives Nathaniel Tilden and Vinson Blanchard presented the certificates.

A WELL-EARNED VACATION

In this modern world of rush and modern inconveniences it probably would be difficult to realize operating a business fifteen hours a day, but up until last Saturday, when a notice appeared on the door of Ed Walsh' store, such has been the case for many years. The notice stated "On Vacation" and those who know the owners, Mr. and Mrs. Edward Walsh, wish them a long and happy one.

There were quite a few other general stores throughout this area that probably compared to the unique Walsh store, which never changed too much as the years passed by. Two genial people, usually both on duty most of the many hours a day.

In the old days a full six-day operation and only within a short time closing Wednesdays for a little hunting and fishing. Ed was not unusual and without the services of an efficiency expert could lay his hands within seconds on merchandise to fill any demands made of him. A reputation for high quality grocery products made him a favorite.

The quick dry wit and interest in youth and youth activities made for some interesting comments with the young fry who parked their bikes in front and loved to try and match wits with him.

His coming retirement from the grocery store comes as no surprise as it has been planned and known about all along and we, together with everyone in the area, wish him the best of everything and will long remember Walsh's General Store, long after the physical signs of the establishment have ceased to be present.

WITHHOLDING TAX DEFEATED

Massachusetts' tradition of sound and honest government has been upheld by the Senate's decisive defeat of Governor Furcolo's sugar-coated withholding tax bill, Chairman Daniel E. McLean of the Massachusetts Republican State Committee said.

"All over the nation, clear-thinking financial experts disagree about the federal income tax levies. Some demand a cut and others urge that the rates be continued unchanged. But not our Governor Furcolo. Spurred on by his inept legislation draftsmen who still hold to the disgraceful theory of 'tax and tax and spend and spend', Furcolo cooly demands that Massachusetts state income tax collections, at least for 1959, be boosted about 30 percent.

"And a 30 percent state income tax jump is just what it is. The kindest description could be 'double taxation'. For if the Furcolo bill went through, every person employed in Massachusetts would, starting next January 1, be subjected to regular withholding on 1959. And then, on April 15, 1959, they would be required to pay all of their state income taxes on 1958 earnings. That would mean that they would pay 130 percent of year's state income taxes during 1959", Chairman Mc Lean explained.

"Like most of the Governor's legislative proposals, his withholding tax bill had its share of glaring 'gimmicks'.

"One of the lesser ones was the false promise that real estate taxpayers all over the state would be helped by a slight reduction in their 1959 rates because $35 millions of the withholding taxes collected from January 1 to April 15 would be distributed among the 351 cities and towns in the Commonwealth.

"That $35 millions would be a non-recurring item. Once it got into the various city and town budgets, it probably would remain there forever. This would mean that almost every community would be forced to boost real estate taxes in 1960 to retain this so-called windfall.

"As far as 1959 is concerned, all home owners and rent payers would have already paid one-quarter of real estate taxes months in advance. Try as they may, the Furcolo sweet-talkers cannot convince any thinking home owner or rent payer that the Furcolo administration is going to give them something for nothing. Furcolo wants them to be taxed and taxed and to pay and pay."

While not discounting the brazen attempt to put over a double tax measure, Chairman Mc Lean branded as an "outrageous fraud" Furcolo's chief withholding tax "gimmick", the state's $17 millions share of income taxes he hoped to collect from next January 15 to April 15.

"That $17 millions was the real purpose of the whole Furcolo withholding tax proposal," Chairman McLean said. "That once-in-a-life-time windfall would be just enough to give Furcolo his record $418 millions budget for the next fiscal year without imposing new taxes that would kill his administration on election day.

"If Governor Furcolo was honest, he would have accepted the 'forgiveness' amendment proposed by a Republican Senator. But that, of course, meant the loss of the $17 millions his wasteful department heads need to pull them out of their current financial holes.

"The best the Furcolo forces could say about their withholding tax was that it would be 'painless'. And to that I agree. In fact, it would be so 'painless' that they would be tempted to boost income tax rates every year and collect in weekly and monthly dribbles. The extravagant Furcolo administration knows well that extra millions can be obtained by nicking long-suffering taxpayers weekly for an extra dime here and a quarter there", Chairman McLean said.

The annual meeting of the Plymouth County Health Association, held at the Dreamwold Inn in Scituate last Wednessay, was attended by Joseph Farwell of Mattapoisett, Edbert Driscoll of Marion and Arthur Lionberger of Rochester. Dr. Kenneth Bird, Instructor of Medicine at Harvard and Tufts Universities, who was the key speaker at this meeting, stated that contrary to the all too common belief that TB is a practically wiped out disease, its eradication and control still remains a tremendous responsibility.

FOREIGN EXCHANGE STUDENTS VISIT WOMAN'S CLUB

Mrs. August F. De Mello, French teacher at New Bedford High School and a representative of the American Field Service Foreign Exchange Program, presented three young foreign exchange students to members and guests of the Rochester Woman's Club at a reception held at the clubhouse following the annual meeting. The students were Miss Maria Pilar Teran from Madrid, Spain; Miss Cynthia Beaudoin of New Bedford and Mr. Preston Rowe of New Bedford. Miss Pilar has lived with her American family, Mr. and Mrs. Clifton Chase of Rochester and their daughters, Karen and Mary Alice, for the past year and attended New Bedford High School as a student. She will return to Spain on June 20. She delighted everyone with her description of her home life in Madrid and her impressions of our way of life in this country which she has grown to love and regrets having to leave very much.

Preston Rowe, who spent last summer in Athens Greece, told of his experiences while there. He was very much impressed by the beauty of the ancient buildings and said that the Greeks are gregarious by nature and love to gather and converse. The Greeks honor learning and the good scholar and higher education is government supported. A good home life is considered very important.

Miss Beaudoin spent her summer vacation in Cologne, Germany. Seventy-five percent of this city is of new construction since the devastation of World War II. One of the customs that she enjoyed very much was that of eating dinner out at some restaurant every night of the week. The head of the house

explained to her that it was felt that a wife was entitled to this treat after performing the daily household duties. This idea, of course, appealed to all the ladies present. She stayed with the family of a contractor and visited many places under construction and of historical interest.

All three students spoke of the differences in education, culture and government, and how very much they had enjoyed their visits and how welcome their "families" had made them. It was fascinating to hear these young people tell of their experiences and all were impressed by their enthusiasm for this program and their hope that it will continue to grow so that more students will be able to benefit in years to come.

Mrs. DeMello spoke of the various requirements and qualifications that a student must have in order to apply for the trip. Application may be made in the junior year of high school. She also mentioned that the students were selling shares to help finance the trips which are so worthwhile for the promotion of international good will, friendship and understanding among young people who will become our future leaders.

At the business meeting, Mrs. Albert E. Hellyer reported for the home nursing group and said that it would soon be announced when classes would start as a teacher was now available. The Woman's Club voted to sponsor this Red Cross course earlier in the year and Mrs. Hellyer is the chairman.

Mrs. David Fearing announced that there would be another record hop on Saturday night,

May 17. Mrs. Fearing is general chairman of the dances. Mrs. Roger Wood, chairman of the club building committee, gave a progress report listing the repairs and costs to date.

It was announced that the annual meeting of the State Federation of Women's Clubs will be held at the New Ocean House in Swampscott, Mass. on May 12, 13 and 14. The president plans to attend on Tuesday, May 13. It was voted to send a delegate in addition to the president, Mrs. Smith.

Mrs. Greenwood Hartley was appointed Boy Scout representative for the Women's Club which is the sponsoring organization for Troop 30 in Rochester. She will confer with Mr. Calvin Daggett, Scoutmaster, on the various scout activities. A supper is planned for the scouts on Thursday, June 6.

At the annual meeting the following officers were elected for the 1958-1959 season: Mrs. Henry B. Smith, president; Mrs. Abraham Jackson, vice-president; Mrs. David Fearing, recording and corresponding secretary; Mrs. Everett Hardy, financial secretary; Mrs. Greenwood Hartler, treasurer; Mrs. C. Clifford Pierce, auditor. Directors elected were Mesdames Ward Benner, Timothy O'Brien, L. Rodman Doane, Merton Hartley and Frank T. Howland.

The annual report of the secretary, Mrs. David Fearing, mentioned that the club membership had been increased by six. Contributions were made to many charities. As a community service, the club sponsored the Mobile Chest X-Ray Program of the Plymouth County Health Association, Inc. A Children's Christmas Party was given on December 14, 1957, to which all Rochester children were invited. Also voted this past year was the plan to sponsor the Red Cross home nursing course which will start shortly. Profit from a dance was given to the Boy Scouts of Rochester, and a supper served for them in May. Whist parties have been held weekly in the clubhouse under the chairmanship of Mrs. Greenwood Hartley, assisted by Mrs. Frank T. Howland and Mrs. Everett Hardy.

The Woman's Club again took part with the Rochester Grange and Rochester P-TA in September to give a reception for the teachers at the Rochester Consolidated School. This year the Woman's Club is expected to take the initiative in planning for this event in September, and a meeting of the representatives of the three clubs is planned for August.

The next business meeting will be on June 3. This is clean-up day and members will meet at 10:30 A.M. to work. A pot-luck luncheon will be served at noon and the business meeting will be at 2:00 P.M. Plans for the bazaar will be completed at this meeting and the program for the next year outlined.

THE DEXTER'S GIFTS

Do you know that the Mattapoisett Historical Society, which is this week to be formally organized, has already the nucleus of a fine collection for the museum which it hopes in time to possess? By the will of Mrs. Lemuel LeBaron Dexter, and greatly in accord with Mr. Dexter's expressed wishes, Mrs. Dexter has given to the Society some of the treasures in their old home.

Four of these old pieces of furniture came from the home of the "Old Minister", Mr. Lemuel LeBaron, who served the First Precinct Church here from 1771 to 1826; thus they date to pre-Revolutionary times. There is an old mirror, the panel above the glass having inlaid a vase of trailing vines in a semi-circular background of black. Below the glass is a similar insert of a shell, also against a black background.

Under this mirror there has always stood in the Dexter home a card table of the Reverend Mr. LeBaron's, made of mahogany with a half leaf that turns back to form a full sized table. Just what this card table was used for by the minister in those strict Puritanic days we can only surmise, surely not for that "devil's game" - cards.

Another piece in this collection is a handsome secretary, the three drawers below with their oval brass handles and the doors above opening to reveal many fascinating small drawers and cubbyholes. Is there somewhere a secret drawer?

Then those who are familiar with the Dexter house will remember the fine old grandfather's clock which always stood in the dining room.

GOLF LESSONS - HOWARD STEVENS, PRO.

This clock came into Mr. Dexter's possession nearly sixty years ago, a wedding present from a descendant of a daughter of the "Old Minister" who had inherited it from him. It still keeps perfect time, its thin silvery ting marking the hour.

In addition to this furniture Mrs. Dexter has given the long, handsome Sheraton sofa from her living room. This once belonged to the Sweats - an old family in town - and was discovered by Mr. Dexter, a ragged, discarded relic banished to the barn. He recognized at once its fine lines and handsomely carved legs and bought it.

The Society also gets two reminders of whaling days. Mr. Dexter made a collection of canes, the work of many a sailor, carved to while away the months of a long whaling voyage. Some have heads of ivory, variously shaped; one is of ivory striped around with black ebony in just the pattern of our red and white Christmas candy canes; others are of tropical wood picked up on some island where the ship dropped anchor. The second piece is a bit of scrimshaw - a jagging wheel such as many a sailor brought home to his wife to use in the decoration of her pies. On each side of the body is inlaid a tiny spray with leaves and flower of mother-of-pearl all exquisitely done.

Last of all, from Mrs. Dexter's own family is a painting of the merchant ship the Potomac of which Mrs. Dexter's grandfather, Allen Dexter, was captain. The artist, Felice Polli; as the vessel lay at anchor in Trieste, he rowed out and made a sketch. Captain Dexter bought the finished painting, which is, according to those who are authorities on ships,

perfect in every detail. It is dated January, 1823.

Now this is but the nucleus of a collection. It is hoped that many in town will consider later in giving or loaning to the Society other things which will help to illustrate the story of our past. Though alas! much of interest has already gone out of town, still there must be treasures, large and small, which will eventually be entrusted to the safe keeping of the Society.

SEARCHERS TO BE COMMENDED

Another example of the American way of life has been fully expressed the past week. Men, women and even children in large numbers expressed their feeling for their fellowman. With only the possibility that a human was in distress, volunteers from many towns, cities and places, from all walks of life, and with no thought of the hardships involved combed the swamps in a thorough search to save a human life.

Those who worked on this ordeal are to be congratulated. To help keep them supplied with strength the newly formed rescue truck and team of workers supplied 2900 cups of coffee, 1070 sandwiches, and quantities of other foodstuff.

Everyone rendered his or her services without a thought of recognition of a personal

nature, nobody punched a time clock or had a thought of being compensated except from the satisfaction of knowing they had helped to the best of their ability.

Anyone who has not had the experience in working in a terrain such as these people covered, can't possibly appreciate their sacrifice. It would seem that this expression of neighborliness is what is referred to when you hear someone speak of "the good old days", and brings out the fact that although we of today are a hard, factual appearing society, we really haven't changed in our basic beliefs so much. We just don't express our love for our neighbor so often as in the days gone by.

P-TC HAS ANNUAL BANQUET

WAREHAM MIRACLE DAYS

A good example of coordination of thought and effort is exemplified in a program of progress now underway in Wareham. The event is known as "Wareham Miracle Days."

Like your car, somebody has to press the starter button to start the motor, but without coordination of every part of the motor transmission and running gear etc., it will not go anywhere.

"Miracle Days" are sponsored by the Wareham Chamber of Commerce. Mr. Carl Cornwell, its president, and a small committee are the spark plugs, and the event is supported by most of the businesses in the town, and particularly by the Chamber members, and will prove one of this area's gala events this Spring. Through the business shopping area of Main Street, a beautiful new roadbed has just been completed. Five hundred car parking area, and all street parking areas, including metered zones, will be open for free convenient parking.

Incentives to come, beyond door prizes at all participating places of business and a grand prize of $100. in cash, are special prices on high grade merchandise, and some very unique ways of letting you buy at discounts of your own choosing to name a few.

You, in visiting this gala three-day event, will, I am sure, be glad you did. It is surely the first such effort to approach the public without the use of trickery and gimmicks, false come ons and the like.

Your attendance to it should show these business people you appreciate an honest effort to serve you well, and that you are handing this small town a vote of confidence

am certain he is capable of administering the office of Governor of Massachusetts because I served with him in the Legislature in 1951-1953 and I admired his ability.

"It has been said by another candidate for Governor that the recent debate with Gov. Furcolo would be a 'three - ring circus'. In my opinion Councillor Herter gave an excellent presentation during the debate and, as a result, the picture has changed with the third party eliminated.

"It is not my opinion that Councillor Herter, in his 40th year, is too young for the office of Governor. A leading Senator from Massachusetts is even now mentioned as Presidential timber and Councillor Herter is the same age as the Senator.

"Councillor Herter has had extensive experience in Washington and in the State House and I call on the people of the Commonwealth to support him and elect him the next Governor of Massachusetts."

Sheriff Dupuis declared: "We are fortunate that Governor's Councillor Christian A. Herter, Jr. is interested in heading our State government.

"Councillor Herter's record shows him to have integrity and sincerity. He has demonstrated dedication to public service by his many official activities in Washington and on Beacon Hill.

"In time of war, Councillor Herter served his country with honor. His past experience in government reveals his capacity to lead and has made him well qualified for the high office to which he aspires".

HAPPY BIRTHDAY TO BRIGGS SPORTING GOODS on the first anniversary of its operation in Mattapoisett. Edwin L. "Sonny" Briggs, Jr., owner and operator, has been running this sport equipment shop since May, 1957.

The shop specializes in everything for the sportsman and a line of hobby accessories and toys for children. The constantly being added to lines carried, include brand names such as A. G. Spaulding, Wright & Ditson, Phantom Rods, Zebco, Mitchell, Ocean City Reels and Dean Athletic equipment, Courtland tennis racquets, Bancroft tennis balls and Randy Boat Shu.

"Sonny", the operator, was injured in an automobile accident three years ago, and manages the store from a wheel chair. In days past he played in all sports with the Sippican Indians, football for New Bedford Vocational High School, and as a member of the United States Midway track team which ran against the Greek Athletic team in Athens, Greece.

It's a friendly operation where money back guarantee is the motto, and free advice to one and all on sporting needs. Stop in and meet the genial young man at his open house this week on Route 6, extend your felicitations and look around.

WITHHOLDING TAX BILL

Replying to Governor Furcolo's statement that he was responsible for the defeat of the withholding tax bill, Chairman Daniel E. McLean of the Massachusetts Republican State Committee issued the following statement:

"Seldom has a more deliberate attempt ever been made to fool the people of the Commonwealth than has been done by Governor Furcolo in sponsoring the withholding tax measure for

the collection of income taxes. The withholding form of collecting income taxes from wage earners may be a better method of collecting taxes from the people, but it will not in any way help or improve permanently the financial condition of the Commonwealth or of any of its cities and towns.

"Members of the State Tax Commission have estimated that, at the most, the additional revenue collected might amount to $2 million after expenses of collection were accounted for, and this amount is debatable. When it is taken into consideration that the Governor needs over $30 million to balance the budget honestly, anyone can see that the withholding tax is not the answer to the State's or the

cities' or towns' financial problems.

"The Governor wants this plan, because, under its provisions, the State would receive a $17 million windfall that will never be available again for the State Treasury. The cities and towns would receive a windfall of $37 million in 1959 which they would never receive again, and which would result in increased taxes for the following year. When the Massachusetts Federation of Taxpayers' Associations opposes this measure, real estate owners can rest assured that this bill will not be of benefit to them.

"Furthermore, to give Fumbling Foster this tax would result in double taxation for the wage-earners of this State at a time when they would be struggling to save enough money to pay their 1958 income tax bill, due in full by April 15. It would enable Fumbling Foster to continue Foster' Folly, increase the State's operating expenses, and drive us deeper into debt.

"Not only does he want to take an extra $17 million from the pockets of our working people, but he wants to refinance $9 million in bonds that are due for payment during the ensuing year. Another example of Fumbling Foster, fooling the people.

"He is hoping to fool the people until election day, and then he won't care. But I have news for him . . . I intend to let the people of this Commonwealth know what an inept, blundering, and extravagant Governor he is.

"To give the Governor his withholding tax plan would only be delaying the day of reckoning and would in no way solve the State's financial problem. The Governor's 'chickens have come home to roost'. His policy of spend, spend, spend without additional taxes has come to an end. He must face the fact, if he is to be honest with the people of the Commonwealth, that a sound fiscal program is essential if the State's financial problems and that of the cities and towns are to be solved. In fact, I challenge him to recommend a sound program that would straighten out the State's financial problems for all time and balance the budget as have all his predecessors in recent years. I bet he won't do it in an election year.

"The Republican Party is for a sound fiscal

LITERATURE-DRAMA GROUP HAVE LAST MEETING

The last meeting of the season of the Literature-Drama group of the Mattapoisett Woman's Club was held last Tuesday afternoon at the home of Mrs. Charles B. Dunn of Point Connett. Mrs. James I. Brackett, Jr. and Mrs. Donald C. Jason gave a short review of "The Winthrop Woman"; Mrs. Harold Banks and Mrs. Dunn, "Anatomy of a Murder" and Mrs. Wilfred Moss and Mrs. Milton Smythe, "The Counterfeit Traitor".

The group decided to attend one of the plays held at the Falmouth Summer Theatre this summer. The play will be decided as soon as a program of the productions for this summer is available. Mrs. Anthony J. Sylvia has invited the group to spend the day with her at her summer home on Long Pond, the date to be announced later. Mrs. Dunn was assisted with the serving of refreshments by Mrs. Brackett.

CELEBRATED BIRTHDAY

Billy Arral, son of Mr. and Mrs. Herbert Arral, celebrated his 11th birthday with a party Sunday at his home on Prospect Road, Mattapoisett. His guests were Steven Valladoa, Harold Banks, David Price, Ronald Knight, and Joseph Zychowicz. Also, his cousin, David Wilcox, and his mother, Mrs. Alton Wilcox, from Whitman.

COVER PICTURE

Myles Standish Monument, Duxbury, Mass. Set on a pine covered hill which overlooks the harbor of Plymouth and the sea beyond is this massive pillar of stone topped by a statue of Standish. It is a beautiful ride to this spot of historic ground and in the grove below the monument are picnic tables for the convenience of the sightseers. The monument is equipped with a spiral stairway which can be climbed for 10¢ and will give you far more than your money's worth in exercise. The view from the top is wonderful. You can see the land across the bay which is Plymouth. On the other side is a breath taking panorama of the open sea.

On the road to the monument you will pass the Bradford House, built in 1674, which stands in the town of Kingston. This is a salt box type home with tiny triangular panes of glass in the windows and a well in the yard. This home is not open for visitors at the present time but it might be later in the season.

This is a ride that might be a little different and certainly beautiful for some week end.
